“Louisville’s Original Home Show” will Point you in the Right Direction

LOUISVILLE, KY, January 12, 2010 - The holidays are over and thankfully you survived another year! Now you can start to think about your plans for the spring that maybe include that home improvement, landscaping, or redecorating project you have talked about for so long. Now’s the time to make plans to visit “Louisville’s Original Home Show,” The Trend Appliances Home, Garden and Remodeling Show, sponsored by LG&E, an E-on company March 5-7, to point you in the right direction for all of your home project needs.

The Trend Appliances Home, Garden and Remodeling Show is now in its 61st year and is one of 30 Home Shows in the nation to be added to the “National Home and Garden Show Series™” this year. “The Trend Appliances Home, Garden, and Remodeling Show was chosen to be included in this prestigious series because of its notoriety for attracting large-scale exhibitors from both the local and regional markets annually,” said Gail Schell, Show Director.

This year the Show will offer more than 400 booths with vendors offering products that will help stimulate your creative juices and provide you with the chance to touch and feel the products you could have in your home. With everything from green and sustainable products, to aging-in-place building techniques, there is something for everyone. We’ve also got show stages that will not only inform you, but entertain the family as well.

Before you host a garage sale this spring, let Dr. Lori tell you what you have. Free antique appraisals presented in a comical fashion will be held for the duration of the show by nationally-renowned art history Ph.D. and antique appraiser, Dr. Lori. If antiques aren’t your thing, but rodent issues are, you’ll want to catch “The Mole Hunter” as he describes how to rid your lawn of pesky vermin for good. On a lighter note, the Trend Appliance Cooking Stages will be tossing together healthy recipes, with a nutritionist on hand to help us stay on track for our New Year’s resolutions. We’ve got it all to keep you pointed in the right direction this spring.

With a kid’s play area, multiple demonstrations, a Dare to Care “can art” exhibit, the Sustainable City, and much more, you can’t afford to miss The Trend Appliances Home, Garden and Remodeling Show, “Louisville’s Original Home Show” March 5-7 at the Kentucky Fair and Exposition Center South and North Wings. The Trend Appliances Home, Garden and Remodeling Show is sponsored by LG&E, an E-on Company and is produced by the Home Builders Association of Louisville. For ticket and additional information about the Show, visit www.louisvillehomeshow.com.
